RESPONSE TO ELECTION OF SPECIES REQUIREMENT

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to your Office Action dated July 16, 2007, Applicant respectfully traverses Examiner's statement that "[c]urrently, claims 1 and 13, and 19 are generic." Applicants believe that claims 1, 2, 4, 9-13, 16, and 18-19 are each generic and read on each species.

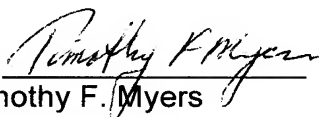

Applicant further respectfully traverses the Examiner's statement that the non-restriction would cause a "burdensome examination." There are only 3 species and the Examiner has not set forth a reason why searching the remaining species would be burdensome given the nature of the subject matter and the scope of the prior art.

Applicant further respectfully traverses the election of species requirement. The election of species requirement is improper because the election of species requirement is made to features that are not mutually

exclusive. MPEP 806.04(f) is clear that claims to be restricted to different species must be mutually exclusive. In other words, different species must be mutually exclusive. Species II and Species III are not mutually exclusive from Species I and therefore searching on either Species II or Species III will require searching on Species I.

In view of the foregoing, the Applicant respectfully requests that the requirement for restriction be withdrawn upon reconsideration. However, to further prosecution, Applicant provisionally elects the species II of Figure 3 on which claims 1, 2, 4, 5, 7-16, and 18-19 read. If upon examination any generic claims are found to be allowable, further species claims that include or incorporate the elements of the generic claim would contain patentable subject matter that would warrant full examination.

Respectfully Submitted,

By:
